25X1 11. [ ] JSW) Walter Morgan, in the office of Senator Peter H. Dominick, called stating the Senator had asked him to be in touch with me to handle a constituent letter involving a question of where the Agency budget is hidden and also general questions about supervision of the Agency. Later in the day, I furnished Mr. Morgan with a partial draft of a response to the constituent which dealt with factual matters such as the Bureau of the Budget and congressional supervision which he thought was satisfactory for their purposes.

25X1 12. [ ] JSW) Mr. Michaels, House Appropriations Committee staff, telephoned indicating that he had a chance to go over the proposed outline for the hearings before the Defense Subcommittee. Mr. Mahon specifically stated that he would like all of the items covered and in the usual degree of details. In addition, he suggested that we include an item on India-Pakistan relationships.

25X1 13. [ ] JSW) At the request of the Director, exhibited to Mr. Darden, Senate Armed Services Committee staff, a PDB item with the request that Darden assist me in getting this matter before Senator Russell to seek his advice in connection with our briefing of the Disarmament Subcommittee later in the day. It was Darden's independent judgment that he was sure Senator Russell believed that this matter should not be raised with this group. Subsequently, Darden was able to discuss the matter thoroughly with Senator Russell. The Senator indicated that if at all possible the Director should avoid discussing the item at this time.
